RE: Request for Approval of Updated Form and Amount of Surety,
Tony M/Lucky Strike Mine, M/017/001, Garfield County, Utah

In August of 1989, the above referenced mine was sold by Plateau Resources to Nuclear Fuels Services, Inc. (NFS). The Board approved a temporary form and amount of surety submitted by NFS, at that time. The reclamation estimate for the site has since been revised, following an inspection of the site which I performed in November of 1989 (please find enclosed a copy of the reclamation estimate). The new estimate changes the current approved surety from \$140,600 to \$148,000.

The operator plans to cover the surety with a \$148,000 Letter of Credit issued by the North Carolina National Bank. You will find enclosed with this packet, a draft Reclamation Contract (filled out but unsigned). The operator plans to submit a fully executed contract and an Irrevocable Letter of Credit prior to the January 25, 1990 Board Briefing.
